

F137-F146

This diagram shows a fuse block installed in a vehicle's engine compartment. The fuse block is a dark, rectangular component with multiple rows of fuse slots. Two arrows point from labels to specific positions within the block. The label 'F137-F146' points to a slot in the upper left section, and the label 'Z2' points to a slot in the lower right section. The surrounding area shows the metal frame of the engine bay with various bolts and components.
